**Keywords** Copper coin, Gold, Silver, Currency Circumstances

### ● Research Outline

#### Reexamination of the medieval and the early Modern Japan's monetary history

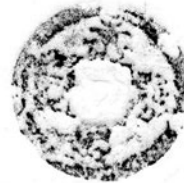

This effort is aimed for the rebuilding of currency circumstances of the Japanese of the Middle Ages and the early part of Modern Ages.

I adopted a method to let history and an archeological point of view fuse to achieve this purpose. And I clarified the currency circumstances about the region of Japan (Hokuriku region and Shikoku region, Tohoku region, Tokai region and so on) and connection through the currency with Japan and Asia such as Fujian or Vietnam by using the method of this study.
